Bear Citizens,

We have reserved 50% of the beds in the following hospitals along with the beds in the government run institutions for COVID-19 patients and the beds will be allotted by central bed allocation system based on symptoms and other criteria by the Government. However the patients can go to these hospitals with 118 number and positive report where the admission and treatment will be provided by the hospital subject to the availability of the beds at that center to which the patient has been referred for admission.

The patients with severe distress shall not be denied admission by any institution even if the lab reports are not available.

COVID-19 patients can contact these Hospitals. In case of any inconvenience, they may contact nodal persons.

For more information/details call TOLL-FREE NUMBER 118

In case the patient is unable to contact Hospital/Nodal person, they can call Toll-Free Number 108.
