

Mini-CCC

<p>1) Why should we seal 3 floors? Why not seal only the affected apartment. Plus any apartment within close proximity, say within 5 meters, from that apartment.</p> <p>2) Why are some BBMP Officers asking for 28 days quarantine? Isn't the norm 14 days quarantine?</p>	<p>As per the SOP, containment zones are demarcated based on the epidemiological movement of the patient.</p> <p>14 days Institutional/Home quarantine is mandatory followed by 14 days Reporting time, in which the patient needs to report for any symptoms.</p>
<p>3) Do we allow domestic help into the complex or not during this lockdown?</p> <p>4) Can people go walking/running inside the residential complex if they follow SD/masks. At least early mornings before 8.00 am, during this lockdown?</p> <p>5) Housekeeping support staff coming into the complex. Are they allowed or do they need to be provided space to stay in.</p>	<p>Nobody should be in the living area of COVID patients.</p> <p>Walking inside the residence complex is allowed as long as they follow social distancing and wear face masks.</p> <p>Medical and support staff must follow strict guidelines treating COVID positive patients.</p>
